WILBUR A. LEVIN KEYNOTE ADDRESS

Race, Food, and Justice
Malik Yakini, Executive Director,
Detroit Black Community Food Security Network

“It is impossible to have a just food system in the United States without massive land reform. The concentration of land ownership in the hands of a few creates communities that are intentionally disempowered and dependent on others to feed them. The massive losses in ownership of Black farmland over the past 100 years have relegated most African Americans to being consumers living in urban areas where others sell them second-rate foods and extract community wealth in the process.”—Malik Yakini

Present this flyer for free admission to the Garden.
